

**PSCI 3110: The Legislative Process
Fall 2019**

Specifications for LegSim Mini-Project #5: LegSim Procedures Assessment

Our legislative simulation requires that all member understand the rules of the legislature. Accordingly, all students should carefully review the Tutorial materials in LegSim that are listed below.

- Read:
 - The Big Picture
 - Member Tutorial
 - Senate Rules of Procedure
 - How a Filibuster Works in LegSim

To earn credit for this Mini-Project, you must complete a Procedures Assessment in Canvas. This assessment will include questions about general procedure and floor procedure. You may take the assessment as many times as you want, but you must earn a grade of 80% to earn credit! If your highest score is below 80%, you will not receive credit.

After each attempt, you will be able to see your score and the answers that you submitted. You will not be told which questions were answered correctly and incorrectly. The most efficient way to master the assessment is to read the assigned materials and then to consult them while you complete the assessment. Repeated guessing may eventually get you a passing score, but it will probably take longer and won't help you learn the material as well as reading the material carefully.

You will earn credit for this Mini-Project if:

- You earn a score of 80% or higher on the Procedures Assessment by Sunday, October 27 at 11:59 pm.
